

Title % Author % Date

# Slide 1 title

Some super quickly created demo slides

- ▶ Do not need anything else than markdown
  - ▶ Slides title starts with `#` (also starts a new slide)
  - ▶ Bullet points, newlines, empty lines: all standard markdown
- ▶ However, can also use other stuff, e.g.:
  - ▶ Some HTML (e.g. `<center>`)
  - ▶ When using pandoc beamer, can use latex commands (e.g. `\center`, `\large`, etc)...

## Slide 2 title

The slide syntax is so simple.
